Any Other Private Work:

Charge:

Please Note:

The above non-nhs fees are subject to change at the discretion of Wye Surgery.

All private work must be paid for prior to the doctor/member of the practice completing the work.

Once payment has been received your request will be actioned. Unfortunately, due to an increase in bad debts where private work was requested but not collected and paid for, we have now changed our systems for completing such private work.

Please also note that if on completion, any further work was required in order to complete your request, a small additional charge may be made. However where possible we will ensure that the initial charge is accurate.

Many thanks for your co-operation with this matter.
